ENGINEERING

- React
- Next.js
- TypeScript
- JavaScript
- Node.js
- Tailwind CSS
- GraphQL
- MongoDB
- Framer Motion
- GSAP

DESIGN

- Figma
- UI / UX
- Design Systems
- Brand Identity
- Prototyping
- Adobe XD

STRENGTHS

Full Stack Design Engineer who lives at the seam between **design and code** — shipping production-grade interfaces and the systems behind them. Five years turning ambiguous ideas into **polished, high-performance products** across AI, fintech, edtech and community platforms. I own the work end-to-end: from **Figma to deployment**, brand identity to scalable React architecture.

EXPERIENCE

- Two Lions

CURRENT

May 2026 — Present

Full Stack Design Engineer · Startup Studio — AI / Deep Tech

Drive end-to-end product design and full-stack development across a portfolio of AI and deep-tech ventures — building scalable, production-ready interfaces and backend systems that take early-stage startups from concept to launch.
- Naija Diaspora Hub

Sep 2025 — Present

Lead Product Designer & Frontend Developer · Community Platform

Lead product design and frontend for a global diaspora community platform — architecting a scalable design system and shipping responsive, accessible interfaces with modern React frameworks.
- Silicon Delta

Jul 2024 — Feb 2025

UI/UX Designer · EdTech

Designed a comprehensive Learning Management System for Nigerian institutions, partnering closely with engineering for pixel-perfect, accessible implementation under real technical constraints.
- RainShield Global

Jun 2024 — Dec 2024

UI/UX Designer & Brand Identity Developer · Fintech

Led a full brand identity overhaul and built a trust-centric UI/UX design system from the ground up, optimizing user flows for efficiency across diverse customer segments.
- Carb

2022 — 2023

UI/UX Designer & Brand Identity Developer · Mobility

Established the visual identity for a competitive e-hailing startup and designed dual-sided rider and driver app interfaces built to drive acquisition and retention.

SELECTED IMPACT

- +35%

E-commerce redesign lifting user engagement and conversion through a UI/UX overhaul.
- OSS

Open-source contributor to React libraries used by developers worldwide.
- '24

Web Design Excellence Award for a high-craft, high-performance portfolio.

EDUCATION & FOCUS

- Self-Directed Design Engineering

Design Systems · Frontend Architecture

Continuous study of interaction design, motion, and modern web performance.
- Brand & Visual Identity

Fintech · Mobility · EdTech

Hands-on identity work shipped across multiple early-stage ventures.
